KPSI0S-20

PTFE-free silicone grease GLS 762/N0 H1

ELKALUB GLS 762/N0 is a fully synthetic grease for use in the food, beverage and pharmaceutical industries. The grease is based on a silicone oil and is thickened without the use of polytetrafluoroethylene (PTFE). This special feature improves the pumping behavior in central lubrication systems and prevents blocking - especially of metering valves and progressive feeders. ELKALUB GLS 762/N0 is suitable for the lubrication of all types of sliding operations. It is adhesive, very water and steam resistant and compatible with most sealing materials (e.g. EPDM, NBR, HNBR, FKM, FFKM). A preferred application of ELKALUB GLS 762/N0 is the lubrication of rotary distributors in beverage filling systems. [Better without: PTFE-free silicone grease for the food industry](#)

This is a special product which can be produced individually for you on request. Smaller quantities can apply. Please just talk to us.

BASE OIL silicone

THICKENER polyurea Inorganic

VISCOSITY 3800 mm²/s

OPERATING TEMPERATURE -20 °C bis 180 °C

FIELD OF USE

- bearings
- Fittings & O-rings

BUSINESS

- Food
- beverages
- Pharma & Medicine
- plant construction
- miscellaneous

FUNCTIONALITY

- High temperature grease
- Food grease

PACKING

- 5 kg bucket
 - 18 kg hobbock
 - 50 kg hobbock
-
