

Special Grease GLL 1

ELKALUB GLL 1 is a mineral oil based grease especially for the lubrication of roller and slide bearings in the temperature range from -20 °C up to + 120 °C. The product offers an excellent protection against wear and corrosion. Due to its paste-like consistency the grease dissolves well and without residues in lubricating oils and is therefore suited for a multitude of assembly applications (e.g. pre-lubrication of slide bearings, seal installation - no EPDM).

BASE OIL ester mineral oil

THICKENER lithium

VISCOSITY 68 mm²/s

OPERATING TEMPERATURE -20 °C bis 120 °C

PACKING

- 250 g tube
- 1 kg can
- 5 kg bucket
- 50 kg hobbock
