

KP000K-10

Grease for the food industry GLS 367/N000 H1 Halal

ELKALUB GLS 367/N000 is a partly synthetic lubricating grease for application in the food industry. The product is extremely adhesive and is especially suitable for gears subject to deficient lubrication due to a spin-off of the lubricant. The product can also be applied for slowturning antifriction bearings, for slip motions and for the lubrication of chains, valves, spindles, sterilizers etc. ELKALUB GLS 367/N00 is resistant to water, acids and alkalis. ELKALUB GLS 367/N00 is suitable for temperatures from -10 °C up to +130 °C (short-time up to 180 °C).
