Gear grease for power tools VP 871

ELKALUB VP 871 is a highly additive gear grease. By using synthetic hydrocarbons and esters, the grease can be used in a very wide temperature range (especially in the cold). ELKALUB VP 871 is preferably used for the permanent lubrication in metal / metal gearboxes of power tools.

This is a special product which can be produced individually for you on request. Smaller quantities can apply. Please just talk to us.
