

KPF1-2K-20

MoS₂-grease

ELKALUB GLL 10/N1-2 is a long-fibrous, highly adhesive lubricating grease based on lithium soap and containing molybdenumdisulfide (MoS₂). ELKALUB GLL 10/N1-2 is particularly suited for heavy loads in roller and slide bearings as well as for open points of lubrication. The addition of MoS₂ to a basic grease already having a high load carrying capacity, renders ELKALUB GLL 10/N1-2 particularly suited for extremely loaded slide bearings, open cogwheels, joints, cams, rollers and slideways.
